It is the policy of Rock Port Long Distance to not share customer account information with any person not named on the customer's account. We do not target market customers or sell account information. Letters were sent to customers making password protection available for all accounts.

Customer Service Representatives were trained regarding CPNI protections and CPNI training was also provided to entire staff. Ongoing efforts include refresher training and one on one counseling of employees. If no account password has been provided, information is provided to customers only by 1) sending it to address on account record 2) calling back on the account number 3) in person with identification or 4) limiting information to details about information caller provides. Privacy of Communications and Proprietary Information are covered in our written policy that each employee is required to validate their understanding by signature.

We have had no consumer complaints regarding CPNI and no breaches that I am aware of.
